TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.,
(Sign of the Chinaman grinding Coffee,)
141 WASHINGTON STREET, BOSTON.

Supply the best, finest and purest articles at the *lowest Cash prices*. Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Tamarinds, Currie Powder and Dandelion Root, &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely on having them *pure* and *genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO." To give consumers some idea of our sales, we annex the following scale of prices, viz:

5lb. or 10lb. bag Tea, 1,50 5lb. or 10lb. Coffee, 1,00
5lb. Oolong Tea, 1,25 5lb. Java Coffee, 90
5lb. Y. Hyson Tea, 1,00 5lb. Mixed Coffee, 1,00

The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee*, as an article which is highly recommended, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lbs. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root*, this article is prepared and ready at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee*," may be relied upon as the *genuine article*. The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be used with confidence not, as at present, in the dark. And will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many leading physicians, to invalids, children, and debilitated persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

Be careful to observe that all our *Coffees* have our trade mark, "Chinaman grinding coffee."

To Grocers and Dealers a liberal discount in range, enabling them to supply their customers at the same low rates as

TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system, and we confidently invite examination of the *quality* of our teas, and our prices, as compared with those of any other house.

THE GREATEST
MEDICAL DISCOVERY
Of the Age,

Dr. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds, a remedy that cures

EVERY KIND OF HUMOR,
From the worst Scrofula down to a common Pimple.

He has tried it in over 1100 cases, and never failed except in two cases, (both thunder humors.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a running sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of boils.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and fumish ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst cases of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I pledge myself over my thousand bottles of this the discovery of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear to the surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its virtue has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I sold only about six bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1855, over two thousand.

Some of the wealthiest families in Boston have been in basin so twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. Q. what is the way it does it? Its effects on all cases of this awful malady—there are but few which have been attempted in vain I have.

I know of several cases of Dropsy, all of them aged people, cured by it. In all various cases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever an Ague, Rheumatism, Diseases of the Spine, and particularly in Diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you can get, and drink of the best.

Directions—one tablespoonful per day—children over ten years, dessert spoonful—Children from five to eight years, tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.

PROFESSOR WOOD'S
HAIR RESTORATIVE

IS, no doubt, the most wonderful discovery of this age of progress of the kind restore, permanently, gray hair to its original color, cover the head of those left with a new, luxuriant growth, remove at once all dandruff and itchiness, prevent all scrofula, and other cutaneous eruptions, such as scald head, &c. It will cure, as it by magic, nervous or periodical headache; make the hair soft, glossy, and wavy; and preserve the color perfect, dry, and the hair from falling to extreme old age.

The following is from a distinguished member of the medical profession:

St. Paul, January 21, 1855.

Professor O. J. Wood—Dear Sir: Considered, I send you the certificate. After being nearly bald for a long time, and having tried all the hair preparations extant, and having no faith, in any, I was induced, on hearing of yours, to try it. I procured it, and rubbed it on my head, and that my head rubbed, with a good deal of rush, and the first operation that I used and well rubbed in, till the whole was shiny. This I repeated every morning, and in three weeks the bald was repainted and new curls from Adonis head made their appearance, and now thick, black, strong—and fine and pleasant to the touch; whereas, before it was harsh, red, wiry, what little there was of it, &c. I find that color was disappearing very rapidly. I find it to your restorative about twice a week, and shall soon have a good and perfect crop of hair. Now I find one of three things—and who has not?—but have not been philosophers enough to know which—either I am bald, or my head is not, or I have found a remedy for baldness. Whichever it is, I am thankful, and if you choose to give my name as a reference to any one who may personally doubt the truth of the above statement, you are at liberty to do so. Yours, truly,

A. W. BOND,
Firm of Bond & Kelley, Druggists, St. Paul.

From the Rockford (Ill.) Register Advertiser.

Rockford, 27 Rockford street, March 20, 1855.

Dear Sir: Having used your Restorative for a long time, and having found it to be a good article for the hair, I will be as short as possible. I have also been much gratified at the healthy existence and vigor of the hair, which before was harsh and dry, and it has caused it to grow out so luxuriantly.

Respectfully yours, D. C. M. RUPP.

Professor Wood.

CANTON, Illinois, June 10, 1855.

I have used Professor Wood's Hair Restorative, and have received a wonderful effect. My hair was becoming, as I supposed, prematurely gray, but by the use of the "Restorative," it has restored its original color, and I have no doubt, permanently so.

How the Kansas Prisoners were Released.

Governor Geary is not entitled to any credit for releasing the free State prisoners in Kansas, who were incarcerated on a charge of treason for resisting or refusing to obey the bogus government. Nor was it by any action of the administration at Washington that they were released, nor by any movement of the democratic leaders, although it has been thought that they were frightened into measures for the liberation of these men.

It seems it was not brought about at all by the interference of Geary or the administration, and they are now simply bound over for trial. The matter is explained in a letter of Sept. 10th to the Tribune. The writer says that, a day or two after the treaty of Lecompton came on the regular session of the Court, to which these trials had already once been postponed. The prosecuting officer wanted Lecompton to adjourn the term altogether, on the ground that the country was in a state of insurrection; but no proof was offered of that, and as Lecompton did not see fit to take judicial notice of it, he refused the motion. The attorney then moved to continue the cases on the ground that the country was in such a state of commotion that jurors and witnesses could not attend. Lecompton granted this motion, but compelled at the same time, as the prisoners were ready for trial, to admit them to bail, which was immediately done. It appears there were two indictments against them, one for a misdemeanor in assuming office, the other for treason. Both were a mere trick to deprive the Free State men of their freedom, throw them into confusion, and drive them to extremes, of which advantage might be taken to crush them out.

AN HONEST BUCHANAN ORGAN.—There is a paper published in New York city, called the *Day Book*. It is the acknowledged organ of the democratic administration, and receives its sustenance from the New York Custom House. This paper not long since asserted that Mr. Fillmore would speedily come when an abolitionist would be lynched in a room in Boston and New York as in Charleston or Kansas. We give a few elegant extracts from this humane sheet. Speaking of the Cincinnati platform, the *Day Book* says:

"Shall the Democratic party fear the issue to which the convention of Sandusky [illegible] thousand names, a million times, No! THERE IS NOT A SINGLE DEMOCRAT IN THE WHOLE NORTH OPPOSED TO THE EXTENSION OF SOUTHERN SOCIETY, [illegible] SO-CALLED EXTENSION OF SLAVERY," and shortly went on to have the truth spoken out and things called by their right names, to sweep the abolition conspirators from the republic, and to bury its leaders' bids in the profoundest depths—the lowest possible depth in public contempt."

The New York Evening Post publishes an estimate of the Presidential canvass in New York, by counties. The estimate is made up partly from canvass in the respective counties, and partly from the estimates of experienced and well informed politicians. The Post gives the vote on Buchanan now, but thinks that by the day of election both Fillmore and Buchanan will have lost strength greatly, both are losing daily. The aggregates of the estimates, as follows: Fremont 217,000; Fillmore 120,300; Buchanan 140,800. By this estimate, Fremont's plurality will be 77,100.

THE FIREMAN'S MUSTER.—The Lowell Daily News of the 25th says, the "arrangements for the grand firemen's muster in this city, on the 2d and 3d proximo, progress with great spirit. Between eight and nine hundred dollars have already been subscribed by our citizens to furnish the prizes for competition, and to assist in paying expenses. Our own firemen will not compete for any prize, but will devote their whole time in receiving and entertaining companies from abroad. Some twelve or fifteen companies have signified their intention of being present, and between thirty and forty companies are expected. Probably every New England State will be represented."

Pennsylvania is shortly contested battle field. The whole force is thrown into that contest, on both sides; but the Republican phalanx moves ahead with daily accelerating strength, and gathers numbers as it goes. Among the Republican speakers from this State who will be found there, are Hannibal Hamlin, Lot M. Morrill, and others; while the chain democracy announce Nathan Clifford, Messrs. McDonald Geo. F. Shepley, and others from Maine.

The receipts of grain at New York, by the North river boats and barges, on Monday, amounted to 180,600 bushels of wheat, and 151,000 bushels corn.

"The Trite of Jesus," is the name of a Fremont Club in Sandusky, Ohio.

THE LADIES' KANSAS LEVEE last evening at Norombega Hall, was fully attended, and the Kansas aid fund largely benefitted. Over 1200 admission tickets were sold.

The hall was tastefully decorated with flags, flowers and evergreens, interspersed with appropriate mottoes and portraits.

The Levee was opened with a striking tableau, (disclosed by raising a curtain) of national flags, of 31 beautiful young ladies dressed in white, crowned with wreaths and wearing the national colors—representing the 31 States.

A fine written poetical "Appeal for Aid to Kansas" was then read with excellent effect by Miss Lizzie Varney, who personated Texas in the tableau. The whole was well conceived and happily executed, and elicited much applause.

Hon. Israel Washburn Jun. spoke with much force and eloquence of the wrongs of Kansas, and of the history of the outrages upon freedom within her borders.

SPEAKING OUT.—Judge Rost of Louisiana, one of the Democratic speakers at Concord, N. H., uttered in very plain Et cetera precisely what Rufus Choate took for granted when he wrote his remarkable letter against the Declaration of Independence. He said:

"The institution of slavery is stronger than the Constitution, than party, than *the Government*, than THE UNION."

WASHINGTON COUNTY FAIR.—The Washington County Cattle Show and Agricultural Fair will be held at Pembroke on the last day of September and the first day of October.—An address will be delivered on the second day by Mr John C. Caldwell, of East Machias.

THE Portuguese Minister to the U. S. has suspended the Portuguese Consul at Baltimore, who had been indicted for complicity with the slave trade. The partner in business of the Portuguese Consul in New York, has also been indicted. The Consul is the Minister's son.

AT the American Convention on for the 11th, 12th, 13th, 14th and 15th Congressional Districts, at Pittsburgh, on Tuesday, Hon. Charles Treadway of Westchester was unanimously nominated for re-election.

THE receipts of wheat at Chicago are now about 80,000 bushels per day, and the total receipts of all kinds of grain amount to one million bushels per week.

AHEAD LOOK FOR FREMONT.—We learn from the Portland Journal that "the democracy of Owl's Head formed a national Democratic Club on the 20th, and determined to make a strong effort for Mr. Buchanan in November."

The Pulaski Democrat, alluding to the defeat of the Buchaneers in Maine, says: it was "owing to various causes, but principally to a deficiency of Democratic votes."

FASHIONABLE.—BOMBAY, OCT.—The Mount Vernon Hotel, at Cape May, has been destroyed by fire. It was capable of accommodating 2100 guests, and was worth $150,000.

Hon. Mike Walsh has returned to New York from his European tour a steerage passenger in a sailing vessel. He went out in one of the best steamer berths.

Prof. Addison, the Waking Clairvoyant Physician, now stopping at the Bangor House, will close his visit on Saturday Oct. 4th. 3w37

LECTURE ON PALESTINE.—The lecture of our young friend G. Henry George, comes off this evening at City Hall. We trust he will have a full house.

LAMENTABLE.—Master Adams, the young orator, lectured on Thursday evening, at City Hall, and to say the least he has uncommon talent. During his lecture he was disturbed to that degree that would entirely upset most men; but the stuck to his subject like a hero. We are sorry to say that the disturbance proceeded from a few men (not boys, as says the Journal of Friday morning, in alluding to the matter.) I think that Bangor will soon be classed with Ellsworth, if such things are countenanced by her citizens. If Prof. Addison is not what Mr. Adams represented him to be, no respectable man would sanction such a proceeding. A CITIZEN.

The Philadelphia Times, which is laboring earnestly for Fremont, gives a very favorable account of the progress of the cause in Eastern Pennsylvania. It states that Philadelphia now is good for 15,000 votes for Fremont, and promises 20,000 by November. It says:

"We say then to all, trust to Philadelphia; she will do her whole duty. Our friends abroad will be surprised at the result here; for the Republicans are working in this city as men never worked before, and they will continue to work till November with as much energy as ever."

Col. Fremont's Remarks to the Publishers.

The significant vote of the members of the Book Publishers' Association, who attended the "trade sales" in New York—56 for Fremont, 6 for Buchanan, and 3 for Fillmore—was so decided an expression of the opinions of the company, that, it is not surprising a visit to the favorite candidate was arranged. On Thursday (18th) at noon, the sale was suspended, when the publishers and dealers, to the number of about three hundred, formed in a procession, and marched to Col. Fremont's house. After the formalities of an introduction, Mr. G. W. Ellis, formerly an old-line Democrat from Dayton, Ohio, and now a thorough-going Fremonter from Davenport, Iowa, addressed Col. Fremont in a brief speech, to which he replied as follows:

"I have to thank you, gentlemen, for this opportunity to make your acquaintance. I trust to have opportunities hereafter of improving it. (Applause.) It seems to be a distinguishing feature in this great movement to regenerate the Government, that throughout the country the men who are most immediately engaged in creating and diffusing our social progress, are actively and cordially at work with us. A most daily we have startling evidences that the heart of the entire people is in this movement, and your visit of to-day is one of the most agreeable of those indications. (Applause.)

"In this reception it is full of promise and encouragement, and I therefore return you my sincere thanks for the trouble you have taken to make the open expression of your sympathies for the cause. I am glad of this occasion to say, that it is a signal gratification to find that the stand we have taken to maintain the integrity of our political Republic we are to have the warm support of the republican farmers, in which the first must always hope to find its perpetuity. (Applause.) It is not difficult to see that you are fully prepared to give a more emphatic expression to your sympathies in November next. (Applause.) All we ask is a new of old Athens, which you, gentlemen, will especially remember, that decreed especial punishment to those who should failed to exercise it. It is very clear that none of you would be obnoxious to the law next November. (Applause.)

Eighteen States were represented on the occasion, including Kentucky and Missouri.

The New York Mirror gives the following as the result of observations made during a short tour in the interior of conversations with many scores of people interested in the coming campaign, and of an attentive daily perusal of its exchange papers:

"We are satisfied that Mr. Buchanan does not stand the shadow of a chance of carrying this State. Some of his best informed friends acknowledge this with candor and ill concealed chagrin. Indeed, Northern and Western sentiment hangs the more shadow of a candidate. In the counties of St. Lawrence, Herkimer, Oneida, Oswego, Onondaga, Washington, Saratoga and Oswego, and others we might mention, there has been a perfect stampede from the Democratic ranks to Fremont. The Syracuse and Cincinnati platforms, endorsing the administration and the Kansas-Nebraska act, did the business effectually. The peace parties put up was a hollow one; ratified by politicians and office holders, it was never accepted by the people. The organization has been merely nominal; the party is really an inert divided as in the contemptation of 1848, when the Free Soil candidate received over 120,000 votes. The same thing, in a more direct and intense form, are again before the people and the vote of 1848 will give New York to Fremont; we think it probable he will get nearly the whole of it. But should a vote thrown out in two will be less even than that of Mr. Fillmore."

A PRECIOUS ADMISSION.—Mr. James Brooks of the New York *Express*, recently made a speech in Springfield, Mass., in which he completely upset the argument that the success of the Republican party would be dangerous to the Union. The Springfield *Republican* says:

"Mr. Brooks unwittingly kicked the dish of all his arguments against the Republican as a sectional and abolitionist party all over, in order to come down the border upon Col. Fremont personally, for he said, if the Republicans, after forming their organization and establishing their principles, had nominated Judge McLean instead of Colonel Fremont, he should have supported him, and urged Mr. Fillmore to withdraw in his favor. So it is not the party, after all, but the candidate, that Mr. Brooks and The Express look upon when saying about the sectionalism, the 'abolitionism,' the 'geographical' party, even the threatened secession'—all 'sin,' you would, so low and endorse, if but Judge McLean, instead of John C. Fremont, had received a majority of the votes at Philadelphia. Thank you for that, Master Brooks."

The Richmond Enquirer, whose insane ravings the New York Herald sometimes copies as evidences that the South will not submit to the election of Fremont, thus speaks of the late Whig National Convention:

"Rare collection of various antiquities! Interesting collection of fossil specimens! Valuable museum of mummies! Such another *Museum* as that of withered leaves and faded flowers no female enthusiast in botanical studies ever carried polite attendant willful. The list of delegates reads like a census of [illegible] antediluvians. We seem to associate with spectres just risen from a sepulchral sleep of centuries! Amiable old gentlemen! How pleasantly they passed their time in important omission to the vigorous bluster of youth! With what an easy and equable current did the streams of garrulity flow! No doubt they forgot their gout in the agreeable illusion of the moment. No doubt their dinner of gruel and cracker was relished with as appetite which might have enjoyed roast beef, but for the difficulty of mastication."

GAS ON SHIP-BOARD.—The Isaac Newton, one of the line steamers which plies between New York and Albany, and indeed the largest vessel in the world, being 404 feet in length, has been fitted with steam apparatus by which the boat sheds her night trips brilliantly illuminated with gas.

The Isaac Newton has 140 burners, and the consumption of gas is 1 400 feet per night. To supply the boat on a trip from New York to Albany and back, one barrel of rosin and a quarter of a ton of coal is used, (the latter to heat the retorts,) besides a small quantity of sawdust, costing about a shilling. The gas thus produced is said to be much denser, and to possess a higher illuminating power than that ordinarily furnished. The works are very simple, occupy only a small apartment on the guards, and require the attendance of one man. The pipes are extended through the boat as in any ordinary dwelling or public house.

The cost of lighting the boat with gas for a single trip does not exceed $1.75, while oil costs for the same length of time $11.

ACCIDENT.—Mr. John Barnes of Bloomfield, at work on the Railroad, had his leg broken last week, by having an embankment of clay and stones fall upon him.—*Skowhegan Clarion*

A Ball given to Hully Brooks.

Greenville C. H., South Carolina,
September 12, 1856.

I beat myself amid the noise of speaking from the Hon. P. S. Brooks and the cheers of the excited populace, together with the occasional music from a fine brass band, to give you a slight description of a complimentary ball of the past evening. The large and splendid room thronged with a gay assemblage of happy faces from the most choice society of the Palmetto State, presented a spectacle of extensive beauty.

As you entered the hall, the eye was arrested by a large painting of the Palmetto Tree, with the inscription, "*Noli me Tangere*," on the top, together with the date of the attack of Sumter, 2nd May, 1856. The walls were hung with festoons, supported in the centre with a shield, with one star; wreaths were formed on the sides, with the initials of the guest's name.

Mr. Brooks was escorted to the ball room at 9 o'clock by the Committee amid the waving of handkerchiefs, cheers and music, and after a short time occupied in promenading and introductions, he selected a partner, and the festivities of the evening commenced, and our guest gave us demonstration that he could use his feet as well as his hands.

Beauty was there seen in its brightest moods, with its most superb decorations.—We have never seen a finer display of rich magnificent toilets or fairy forms on any previous occasion.

We count if any city in the Union could display a greater variety of beauty and intelligence than was gathered together to do homage to the champion of the South. There were many ladies from abroad.

Among the invited guests we noticed Hon. Waddy Thompson, Hon. J. L. Orr, Hon. B. F. Perry, Col. Gladding, from Louisiana, and many more of Carolina's noble sons, all enjoying the festive scene.

The dancing was kept up with spirit and animation until, or out o'clock. The morning refreshments with a distinguished acknowledgement of this patriotic gallantry, fully five hundred persons having enjoyed the festive scene.—Some were reserved, families, who rarely go out of their own immediate circles, were delighted and delighting guests.

This morning, the lad es of the town visited Mr. and Mrs. Brooks, in the drawing-room of the Mansion House, in throngs offering their congratulations, accompanied with choice bouquets, &c. In the evening the Greenville Brass band serenaded Col. Brooks at his lodgings, and, to the unanimous call of the citizens, he appeared and addressed them in a neat speech during which he paid a high tribute of respect to others then in the house, who were, as he said, more worthy from their services than himself in such a demonstration of feeling, meaning Hon. J. L. Orr, also, Col. Gladding, of the Palmetto regiment.—*Charleston Standard.*

Fatal Prize Fight.

The fatal result of the late prize fight between Andy Kelly and Charley Lynch has again forced the brutal system of pugilism upon public attention, and has occasioned an excitement nearly as great as the one that which occurred between Lilly and McCoy in 1842, and which resulted in the death of the latter before leaving the ring.

The principals in the contest on Thursday last were both small men, remarkably well for prize fighters, and very young too. Neither of them were much over the teen age, but the "catch" weight of Kelly, when in the ring, was not more than 119 pounds. Lynch was some heavier, and he was also a few years older, being about twenty-four years of age. The match was considered a pretty even one, for whatever advantage Lynch had in weight was balanced by Kelly in age.

The contest was one of the severest ever witnessed in the American ring. Kelly, by the aid of his superior science, was enabled to strike his antagonist with perfect freedom, and from the commencement of the contest there appeared no doubt but that he would win the fight easily. Indeed it is asserted that by the strict rules of the ring he did actually win the fight twice, but his friends were so confident that they did not press points which would have led to a dispute.

Lynch, though one of his eyes was closed on the sixth round, and he was otherwise badly punished, maintained his ground with the utmost stubbornness. Knowing his superior strength, and failing in his effort to return the blows which he received, he took opportunity of closing in with Kelly and falling upon him heavily. This began at length to tell with considerable effect, and caused Kelly to show evident signs of fatigue. But still he friends were sanguine. As yet he had scarcely received a mark, while Lynch's face was badly disfigured. Kelly, however, towards the end of the fight was observed to gasp and breathe heavily, although injured internally.

The eighty-first round terminated by Kelly's being again thrown down, Lynch falling heavily upon his breast with his knees.

When, after the lapse of two hours and fifteen minutes from the commencement of the fight, time was called for the eighty-sixth round, Kelly sprang from his seconds' lap to meet Lynch, but had scarcely advanced a foot, when, turning deadly pale and tottering a moment, he fell heavily backwards, and never spoke again.—*N. A Portuguese Breath.—What lady or gentleman would remain under the curse of a disagreeable breath when by using the "BALM OF A THOUSAND FLOWERS" in a dentrifice would not only render it impossible but leave the teeth white as alabaster? Many persons do not know that their breath is bad and the subject is so delicate that friends will never mention it. Pour a single drop of the "Balm" on your tooth brush, and wash the teeth night and morning. A fifty cent bottle will last a year. For sale by D. Bugbee & Co., and all Druggists. [illegible]

VALUE OF GROUND IN LONDON AND NEW YORK.—The Builder, a London periodical, speaks of several parcels of land in the central business portion of that city, the value of which is at the rate of from $2,350,000 to $3,200,000 per acre. There is but one parcel mentioned, however, the value of which is much more than one half the sum last named. Large as these figures are, they are equalled, if not exceeded, by New York valuations.—There are many lots in that city which have been sold at the rate of from $2,000,000 to $3,630,000 per acre. Adopting the London plan of estimating the value of land according to the rent, which it brings, and there is a lot on the northeast corner of Fulton street and Broadway which is worth more than at the rate of $13,000,000 per acre.

THE BAPTISTS IN MAINE.—We are indebted to our neighbor Foster, of Zion's Advocate, for a copy of the Minutes of the 32d Annual Meeting of the Maine Baptist Convention, held at Rockland, June 17th, 1856. We learn from them that the Baptists have in this State 277 Churches, 150 Ministers, 18,326 Church Members, 260 Sabbath Schools, and 18,172 Teachers and Scholars. The number baptised during 1855 was 835. The Convention passed a resolution declaring the main doctrines of the work entitled "Sin and Redemption" recently published by a member of that body, to be "essentially unscriptural and fatally erroneous." Resolutions were also passed condemning the assault on Sumner, and in favor of freedom in Kansas.—*Portland Transcript and Eclectic.*

Fremont and Freedom.

BY JOHN EMERSON.

Oh darlings of gallant and true friends of Freedom,
Who, in the cause of right, have avowed to stand
Rush out, ye stout sons of free soil, sword in hand,
And to the skies your banner, (Fremont and Freedom.)

Around your standard rally a mighty army
Of freemen—sons of free land, free thought and free speech
Oh give a death blow to slavery and tyranny;
Freedom to the toiling slave, and to all men's reach.

Freedom of heart, thought and speech in a noble cause
Is a most high boon to ellmen by God given;
Slavery is a sin of hell and foe dom of heaven:
To impose by force dom's law is open to tyrannise.

Oh ye tyrants and opposers of the trodden,
Tremble, for to the South and North ye have shown
Which
To thy [illegible] organization, you shall see by which
Become shall fall their sad reberies of land lies [illegible]

They recompense shall be a crown of thorns and shame
Thanks to [illegible] the mass of men are great
Talk no more of slavery or making of men slaves
Or making dead individuals of the gold graves.

Which laws, of men or those of God, shall we obey?
If we cleave to obey God's laws, we shall then [illegible]
If we fall in a noble cause, welcome to death!
But to fetter the noble mind is not [illegible]

To submit quietly to [illegible] slavery confines
Or serve for base [illegible] to [illegible] condemnation
Shall we, freemen, oppose to the union slavery?
Never! for freedom and slavery are enemies.

"Victory or Death!" shall be forever our motto
And our banner shall bear the name of Fremont
Oh Fremont, ye who have faced with death
Yet still live champion of right—long life to thee
Rowland, Aug. 23, 1856.

Professor Humphrey's SPECIFIC

FOR

Homœopathic Medicines,

Families, Travellers, and others.

THESE Medicines have been carefully prepared, with a view of supplying families and others with *Specific Remedies* against all the more common diseases which occur in every day life. The list includes not only remedies for all the more common diseases, such as Sprains, Colds, Rheumatism, Derangements of the Stomach, Fevers, Worm Complaints, Diarrhœa, &c., but also for those more sudden and violent diseases which require to be met on the part of the more ready aid, such as Cramp, Cholera, Dysentery, Inflammations, &c., for which treatment is very important always to have the proper remedies at hand. There are also remedies for the more delicate Female derangements which a lady finds it so difficult to disclose, and yet a freedom from which contributes to health, to the happiness and enjoyment of life.

These Medicines are prepared in the form of large Sugar Pellets, one of which is sufficient for the largest dose, and put up in boxes properly labelled. Each box contains 30 or 40 Pellets, and the boxes, for the different kinds, are enclosed in a case, accompanied with a small Manual or Book of Directions, giving a concise description of the diseases treated, and directions for giving the medicines, the whole being very plain and simple. Cases, also, containing four or six of the small boxes, are put up, which may be supplied with any of the different kinds at the option of the purchaser.

The advantages of Specific Homœopathic Medicines—In prescribing other Homœopathic Medicines a dozen or twenty will be recommended for a cough, a headache, diarrhœa, or fever, and much care, study, and discrimination is required to select the proper one. But here you have a Specific Remedy for each particular disease, and hence are able to use them with benefit and precision without that labor and study which the business man is not fully able to bestow, and without that regularly and examination which, to the mother, nurse, or invalid, is perplexing, annoying, and unsatisfactory. The advantages are so obvious as to commend them to all.

Prepared by Dr. F. HUMPHREY, Auburn, N.Y., and sold by C. G. WALKER, Agent for Maine, at 24 Main street, Bangor.
